Dear Mary & Don,

Enclosed is your purchase receipt. I know you will receive many years of pleasure from these pieces.

Thank you for the information about the artist. I'm not familiar with the work but will try and see some examples.

My best regards,  
Gail

Nissan Engel was born in Israel in 1931 and has dedicated himself to painting since his youth. He is an artist's artist, having progressed through all the classical phases of apprenticeship before arriving at his own unique style of collage. He discovered this special affinity after working on a series of stained-glass windows in New York and Maryland, a job which inspired him to create intense blocks of color with painted collage elements. Musical themes are often his subject, giving his work its remarkable sense of harmony and rhythm.

A similar lyricism pervades his engravings, which usually stem from his collages. He began exploring this printing medium in the early '80s in Paris, his home of the last fifteen years, and quickly became as masterful at engraving his visual music on metal plates as at piecing it together in collage.

Dear Mary & Don,

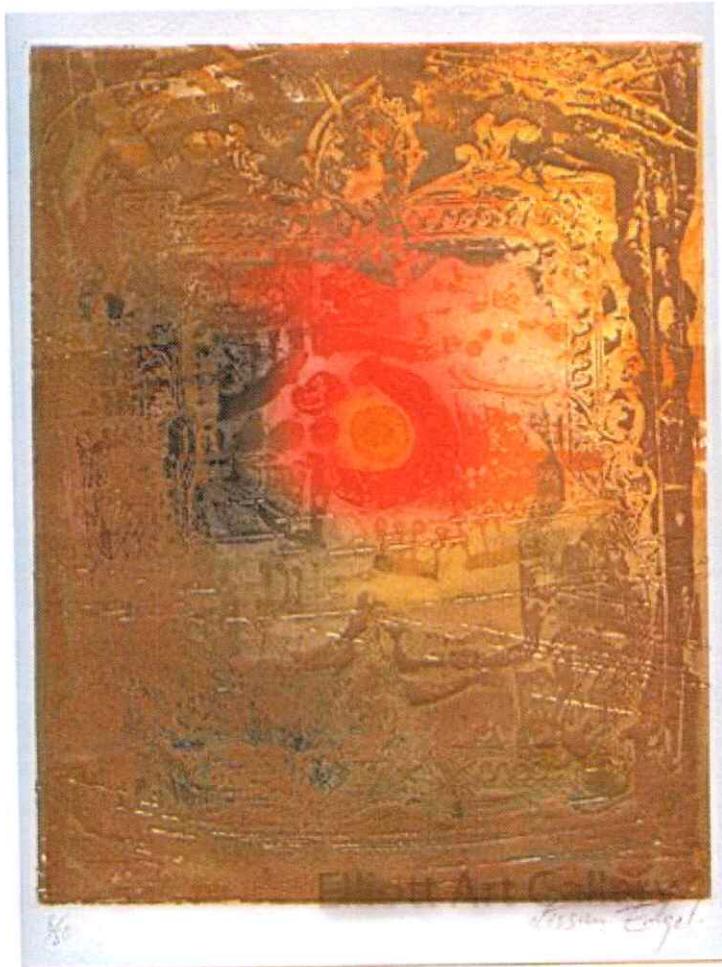

It was a pleasure spending time with you in the gallery last Sunday. I enjoyed exchanging stories about our common interest, in particular the work of Nissan Engel.

The Cristal series that you are considering for your staircase is a beautiful example of Engel's elegant and captivating style. The four pieces are little gems and when hung together will surely bring an added beauty to your home.

I will give you a call over the weekend to talk about acquiring the work.

Sincerely,

*Gail Casale*
